Stephanie/Scott:

Please find the attached EPA Region 2 MEDD format data submittal package containing validated results associated with the LPRSA RM 10.9 RA Water Column Monitoring (Re-suspension Monitoring), Air Monitoring and Post-dredge sediment sampling activities performed by CH2M Hill. ddms indicated that validation of three (3) sample delivery groups is continuing so you can expect there will be another data submittal in February 2014.

The cover letter to this data submittal identifies the references values to be added to the EPA database and explains apparent errors generated by the EDP EDD checking software.

Please note that the attached zipped data files have been provided as a "ZZP" file and the file extension should be re-named "zip" to open it (in the event EPA's e-mail system rejects this type of file.

Happy Holidays!!
